### ESG News

**New Multifile Download Options:** ESG now offers two ways of downloading multiple files at once to the user machine: [Data Mover Light](#) (see [DML instructions](#)) and the standard Unix command `wget` (see [wget instructions](#)). Both DML and `wget` are desktop clients that can be used to download large number of files from the ESG system without clicking on multiple hyperlinks.

**New Browsing Options:** now the ESG browsing interface allows to specify an optional string to match filenames, and to select many files with one single click.

**Data Subsetting:** OPeNDAP-G offers high-performance subsetting capabilities on a number of virtual aggregated datasets - see [list of available aggregations](#)

Registration is required to download some of the data: please [request](#) an account. Please [send us](#) comments or feedback.

New: [IPCC Working Group 1 data](#) available.

The [NCAR MSS](#) is scheduled for downtime each Sunday morning from 0000-0230 MST.

The [NERSC HPSS](#) is scheduled for maintenance downtime from 7-12 PST every Tuesday morning.

The [ORNL HPSS](#) is scheduled for downtime every other Wednesday morning from 8-12 EST.

## Welcome to ESG

The Earth System Grid (ESG) integrates supercomputers with large-scale data and analysis servers located at numerous national labs and research centers to create a powerful environment for next generation climate research. This portal is the primary point of entry into the ESG.
