# SUPPORTING LEARNING

## CREATING THE SPACE

---

1. Understand when learning is possible
  - learning needs to challenge your current understanding
  - learning is less effective when you are overwhelmed
2. Create spaces for community support
  - for those educating and those learning
3. Publicize material ahead of time
  - prioritize educators and authors who are multiply marginalized

# SUPPORTING LEARNING

## WITHIN THE SPACE

---

1. Set guidelines
  - community language use
  - forms of participation
2. Create multiple tiers of engagement
  - create shared knowledge
3. Encourage application of learning outside of the learning space
