

## Wonsu Kim

### Bio:

Wonsu Kim has worked at Korea Institute of Science and Technology Information (KISTI) as a senior researcher since November in 2016. He has 10 years of experience in the atmospheric science, including mesoscale meteorology. He received the M.S. and Ph.D. in Atmospheric Science from the Yonsei University in South Korea. His research focuses on an initiation of heavy precipitation systems, mesoscale atmospheric modeling, and typhoon forecast.
